Kashif Zubair- Craft Talk

It was wonderful to have another of our members give a craft talk and this week it was Kashif! It was the movie "Pretty Woman" that influenced him in his decision to study venture capital. He left Pakistan to visit his brother in the US and ended up staying here and meeting his gorgeous wife, Almaas, in Columbus, Ohio.

Kashif has a 10 year plan; 10 years working for a company (which he completed with Ernst & Young), 10 years developing his own company, Adroit, a management consultancy firm (www.myadroit.com) where he currently is and the next years is scheduled for a career in politics. Needless to say we determined that his political career will expose him to endless heckling so we helped him rehearse his responses at his presentation....

Kashif also created a Facebook page to educate the members on Islam and from its inception a couple of months ago, the page now has over 10,500 followers. And why did Kashif join Rotary 3 years ago? Initially for business and now... 😊
